## Turf Stripper 2000

The Turf Stripper is used to fraise mow, level, de-thatch, and renovate turf areas, as well as to harvest sprigs. It is ideal for use on golf courses, sports fields, and sod farms. It's rotary action removes material and deflects it onto a conveyor system to be hauled away. An optional verti-cut blade kit can also be installed. The machine is highly productive and can be adjusted in small increments.

FEATURE	BENEFIT
High dump conveyor system	Able to load into standard carriers
Triple belt drive	Simple repairs and adjustments
Wide working width	More productivity
Precise adjustments	Better field preparation
Optional blade attachments	Mow, level, de-thatch and renovate with one machine

# Turf Stripper 2000

SPECIFICATIONS	DESCRIPTION
Working Width	79" (2.0m)
Working Depth	2" (Up to 50mm)
Maximum Working speed	1.8 mph (3 km/h)
Weight in kg	2,756 lbs (1,250 kg)
Three-point connection	Cat. 2
Number of cutter knives per disc	4
Number of disks	19
Recommended tractor	40 - 50 HP
Minimum lift capacity of the tractor	3,197lbs (1,450 kg)
Hydraulic connections of the tractor	2x double-acting valves
PTO revs	540 rpm
Standard items	PTO with slip coupling Cutter knives
Optional	Scarify knives
